

A complete sales, purchase and general ledger software system for Livestock Brokering professionals

Introducing  
Jenny

Company  
Director

Jenny founded LivestockOffice in 1990 when she wrote a DOS program for a friend in the Livestock Brokering Industry – Karen and the late Mike Saunders of Gore. Never one to stand still, she turned this into a viable growing family business with award-winning software utilising the latest technologies, employing 3 staff and servicing many clients nationwide. Jenny has a passion for drawing and playing the piano, and a new love of fishing, having caught her 1st fish ever just this Easter. *(as in the above pic).* Jenny and husband Bill enjoy travelling in their mobile home – look out for them in May as they do their annual company roadtrip.

Success is the good fortune  
that comes from aspiration,  
desperation,  
perspiration and inspiration.

## What's Been Happening

As mentioned last month, Jacqui, (introduced in our February newsletter), is running the Routeburn Classic on April 27th. She is running for our son and brother, in support of the Cancer Society to recognise the fantastic work they do for families affected by cancer. Training is going really well and Jac is feeling very confident and excited about the event. It's not too late to show your support by donating to the fund at the following link.
