Livestock Brokering Companies are very busy with the start of the new livestock rearing season with calving, lambing and alterations to grazing contracts. Sale, purchase and pick-up of Bobby Calves are one of the larger jobs for many livestock buying and selling businesses at this time of the year. LivestockOffice Software is geared to take the hassle out of this numbers and allocation exercise. Auction sales are a little quiet at present, but as Spring rolls on, there will be more culls and calves coming forward. The importance of NAIT numbers for Vendors of cattle and deer is crucial and LivestockOffice Software handles the NAIT requirements with ease. The Software creates the transfer file to electronically upload to the NAIT site. If you want to know more, check the Video in YouTube.

Shearing News

This is the new LOGO for the new Payroll / Debtors System being developed by Shebiz Ltd. It is now in the testing stage and soon there will be Video training available to prospective users.

PayBiz will be suitable for all types of Contractors, not only Shearing Contractors, so is a very comprehensive and flexible system. We are very excited.

Events:-

The very first Competition of the Season is the NZ Merino Shearing and Woolhandling Champs in Alexandra – October 4th and 5th. 2013. Entries close 27th September 2013.

Always a wonderful competition with all the top competitors.
